

Environmental Policy

February 2026

Assembly Guys Ltd recognises the importance of environmental responsibility and aims to minimise our environmental impact wherever possible.

Our commitments:

- Reduce waste by reusing packaging and recycling materials.
- Use digital documentation to minimise unnecessary printing.
- Choose responsible suppliers where practical.
- Reduce energy consumption by switching off equipment when not in use.
- Dispose of electrical and electronic waste responsibly.

We believe that even small businesses can make a positive contribution to environmental sustainability.

Daniel Gyenes
Director
